Back-End- Skills: Node.JS, Express.JS, MongoDB **API Management:** Postman

Version Control System: Git, GitHub **IDE:** VS Code

Certification

Cybrom Technology

MERN Full Stack Developer

May 2024 – present

Experience

Front-End Developer

Jan 2024 – Feb 2024

Bharat Intern

- Designed a fully functional Flipkart clone using HTML, CSS, and JavaScript, implementing product listings, shopping cart features, and filtering options.
- Developed a responsive Netflix Clone using React.js, increasing user engagement through seamless navigation and aesthetic appeal
- Built an interactive weather forecasting app utilizing JavaScript and real-time API integrations, improving local forecast accuracy by 30 percent and supporting over 1,000 active users monthly.

Projects

Task-management-dashboard

[github.com/name/repo](#) 

- A task management system built with the MERN stack is a powerful tool to help individuals and teams stay organized. With authentication, CRUD operations, task tracking, and optional real-time updates, this system ensures seamless task management
- Tools Used: React.js, Node.js, Express.js, MongoDB, Tailwind

E-commerce project

[github.com/name/repo](#) 

- Developed a fully functional e-commerce website using the MERN stack with a secure payment gateway integration using Razorpay. The platform allows users to browse products, add them to a cart, and complete purchases seamlessly. The admin panel enables product management, order tracking, and user management.
- Tools used: React.js, Node.js, Express.js, MongoDB.

Education

Lakshmi Narain College of Technology and Science, Bhopal

Sept 2019 – June 2022

Mechanical Engg

- CGPA: 8.38/10.0
